CheckWriter

#### **ATTENTION: Network Edition and Enterprise Edition Users**

– Follow these additional steps. DO NOT install CheckWriter™ on the server.

1. Install a copy of the software on each client machine where CheckWriter™ will be used and test the software by creating a sample record on each terminal. Next, print a test record from each terminal to confirm the software is properly installed and functioning.
2. Next, locate the database file 'cw50.mdb' installed in C:\Program Files\CheckWriter6. With CheckWriter™ closed, right click on this 'cw50.mdb' file and select 'Copy'. Next, paste this file to a shared server drive or other common folder where universal read and write permissions are granted to all users.
3. Once you have located the database on the server or in a central location on the network, open each copy of CheckWriter™ and go to the File Menu, then Options and map each machine to the 'cw50.mdb' file, click OK and close – then reopen CheckWriter™. Once this is complete, print the test record and move to the next terminal until all have been mapped and tested.

Before Using CheckWriter™ for the first time: **READ THE MANUAL**

To access the manual, click the Yellow Question Mark Icon on the CheckWriter™ Toolbar.

Before you use the software, it is **strongly** recommended that you read the following sections of the manual to avoid mis-using the software, and to fully understand the functionality. "About CheckWriter™", "Features and Functions", and "Symbology". To print, select the page, then RIGHT CLICK and SELECT PRINT.

**Don't Forget to Register Your CheckWriter™ Software:**

**Just Open your manual and Click: "REGISTER"**
